

Solids Control

The purpose of solids control is to separate drill cuttings (solids) from drilling fluid.

The goal of KSW Oilfield Rental is to provide an integrated drilling and waste management configuration that addresses all the specifics of our customer.

Regardless of the application, we deliver best-in-class, project-specific solids control solution, providing:

- Maximum separation efficiency
- High-efficiency solids removal
- Reduced dilution rates
- Optimum HSE performance
- Reduced haul off cost
